# THE TURN OF LIFE LAWSON ON

A Time When Women Are Susceptible to Many Dread Diseases-Intelligent Women Prepare for It. Two Relate their Experience.

Mrs. A.E.G. Hyland

Another Woman's Case.

The "change of life" is the most critical period of a woman's existence, and the anxiety felt by women as it draws near is not without reason.

Is not without reason,
Every woman who
neglects the care of her
health at this time invites disease and pain.
When her system is in
a deranged condition,
or she is predisposed to
apoplexy, or congestion
of any organ, the tendency is at this period
likely to become active
—and with a host of nervous irritations, make

vous irritations, make life a burden. At this time, also, cancers and tumors are more liable to form and begin their

destructive work.

Such warning symptoms as sense of suffocation, hot finshes, headaches backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and lizziness, are promptly heeded by intelligent women who are approaching the period in life when woman's great change

may be expected.

may be expected.

These symptoms are all just so many calls from nature for help. The nerves are crying out for assistance and the cry should be heeded in time.

Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system. builds up the weakened nervous system.
It has carried thousands of women safely through this crisis.
For special advice regarding this im-

portant period women are invited to write to Mrs. Pinkham at Lynn, Mass., and it will be furnished absolutely free

of charge.

CALLS FOR PROMINENT MEN

He Has a Scheme for Protecting the Policyholders and Demanding Restitution of Misspent

Chicago, Oct. 9 .- A dispatch to the Chicago Record-Herald from Jefferson City, Mo., says Gov. Folk has received a telegram from Thomas W. Lawson asking him to accept a place with other governors on a protective committee for the policyholders to demand restitution of money by the Mutual, New York life and Equitable companies and to "pun-ish guilty officials." The governor is very busy and probably will not be able to accept the position. Gov. Johnson at St. Paul, Minn., is also in receipt of a telegram from Thomas W. Lawson, asking him to be one, with other governors, of a protective committee for the policyholders to demand restitution of the money of the Mutual, New York life and Equitable companies, and to provide the "I wrote you for advice and commenced treatment with Lydia E. Washington, Oct. 9.-From Dr. Wiley's report of his European investigation made public by Secretary Wilson, it may be inferred that American consumers of imported articles, chiefly whiskies, brandies and wines, will in the near future get much better protection than in the past. Existing law governing importation is in nearly all respects adequate, and the only trouble arises after the articles come into this country, where they are subject to manipulation in crossing interstate lines. A pure food law at home is thus necessary, not only to make fully effective legislation already passed to prevent this country from becoming the dumping ground of these mislabelied and misbranded products of the world. nade public by Secretary Wilson, it may ucts of the world.

That is the material we have been getting. Irish whiskey is more apt to be pure, although it is not made exclusively of malt, except in one or two cases. It has also been sent to the blending warehouse for adulteration. Two ways are open for detecting these mixed goods when they come into the United States; chemical tests and acquaintance with the practices of the different concerns. Samples have been collected from the bonding warehouse, which furnish a standard of purity, and with these it is possible with laboratory analysis to detect the goods which fall short.
